ADMISSION POLICIES

YMCA Mission Statement & Areas of Focus

Mission Statement: To put Christian principles into practice by promoting youth, adult and family activities that build a healthy spirit, mind and body for all.

At the Y we're for youth development, healthy living and social responsibility.

Purpose

Child care at the Y focuses on nurturing child development by providing a safe and healthy place to learn foundational skills and develop healthy, trusting relationships. Programs are offered at the Apple Creek YMCA, (ACY), Appleton YMCA (APY), Fox West YMCA (FWY), Heart of the Valley YMCA (HVY), Neenah-Menasha YMCA (NMY), Child Learning Center (CLC), Camp Shioc and public schools throughout the community.

Programs

The Y accepts registrations for Day Care, Play and Learn, Kids Corner, Pre-school, 4K Wraparound and School Age programs. Ages, hours, days and months available are indicated in the individual program Parent Handbooks.

Age Requirements & Capacity

- Day Care/4k Wrap (APY, CLC, NMY) – 6 weeks through 6 years, capacities vary by site

- Pre-school classes (all locations) – 3 through 5 years, capacities vary by site
 - Child must be 3 years by September 1st of the year entering the Pre-school program.
 - Child must be toilet trained before entering the Pre-school program.
- School Age Program (all locations) – 5 through 12 years, capacities vary by site

- School Age – separate programs run during the school year and during the summer months. Closed for certain holidays and staff development days, see Parent Handbook for closings.

If emergency closing is necessary, the YMCA of the Fox Cities COO will notify the Executive Directors, who then notify the Director/Coordinator.

Licensing Information & Parent Communication

Individual program licenses, indicating program capacities, licensing exceptions and recent licensing inspections are displayed by the parent center table or check in/out area. This is where parents are notified of important information and center policies.

Absent Child & Attendance Methods

All our child care programs require the known whereabouts of the children at all times. This is done through a sign in/out sheet (or digitally) in each program area or classroom. If a child is absent from a scheduled program without parental notification, the staff will contact the parents to learn the child's whereabouts within one hour (or by 9:00 AM in day care). Repeated failure to notify Y staff of a child's absence could result in denial of program services.

Part Time & Full Time Care

Part time & full time care is determined in individual Parent Handbooks.

Children's Records & Confidentiality

Children's records required for enrollment are kept confidential. Children's records are available to parents upon request. The staff will have access to the children's records (excluding student participants and volunteers). This information will not be discussed or disclosed with regard to the children and the facts learned about the children and their relatives. This does not apply to:

- The parents or persons authorized in writing by the parent/guardian to receive such information.
- An agency assisting in planning for the child when informed written consent has been given.

All records need to be accessible to the State Department of Health and Family Services for licensing purposes.

Child Abuse Prevention

The Y has developed a policy on prevention of child abuse that includes the following provisions:

- Parents are encouraged to visit program sites at any time.
- Staff and volunteers will be alerted to the physical and emotional state of all children and will notify the proper officials when any sign of injury or suspected abuse is detected.
- The Y will not release a child to anyone other than the authorized parents/guardians or other individuals authorized, in writing, by parents.
- Staff will ask to see a photo ID upon pick-up for anyone they do not recognize to be an authorized pick-up person.
- Reference checks on all prospective Y employees and volunteers will be conducted, documented and filed prior to employment. Criminal record checks will be conducted on all staff and volunteers yearly.
- Licensed child care programs – fingerprint database search for staff.

Administrative Structure

The YMCA of the Fox Cities, Inc. consists of the Apple Creek, Appleton, Fox West, Heart of the Valley and Neenah-Menasha YMCA. Each YMCA location has a Child Care Director or Coordinator that oversees all child care programs. The YMCA of the Fox Cities is governed by a volunteer board of directors.

Enrollment

Families interested in enrolling in a program must complete the registration materials and applicable fees before the first day of participation in care. Forms required may consist of the following needed material:

- Contract
- Payment Form
- Child Enrollment and Health History
- Immunization Record
- Infant/toddler Intake Form (for ages 2 years and younger)
- Child Health Report – (not necessary for School Age)

Updating all information about the child, including additional immunizations, changes in address, telephone numbers, or family situations is the responsibility of the parent/guardian.

We encourage you to observe the program prior to enrolling and periodically while enrolled. We have an open door policy and will be happy to have you visit us at your convenience.

We ask that an intake be scheduled before your child begins care in day care and also when your child transitions to another room. This will assist you in learning more about each classroom including the daily schedule.

Items provided by the parents are listed in the individual program Parent Handbooks. They may include a change of clothing/footwear, snack, or lunch.

Custody Arrangements

Staff will not become involved in custody disputes. A copy of the most current certified court order must be submitted at the time of enrollment or if a change occurs in the structure of the family. The court order will be kept on file at the Y site.

Court Order on File:

- **Primary/Sole Custody:** Staff will follow written instructions provided by the parent/guardian identified as having primary or sole custody on the court order.
- **Joint Custody:** Staff will abide by the court ordered custody arrangements specified for each day. Each parent will be requested to provide written instructions identifying persons authorized to pick up their child on their court ordered day. Each parent will complete a separate contract for payment purposes if necessary.

Court Order NOT on File: Staff will allow both parents to pick up their child.

Photo Policy

Parents will authorize the YMCA to use photos taken of their children for promotional purposes, including webpages, cover issues, brochures or flyers that promote information about the YMCA programs on their yearly contracts.

Pets

Any pets in a child care program will be announced to parents in writing. Access to any pets will be supervised by Y employees. Parents have the right to request their child not be exposed to pets.

Children's Records & Medical Logs

Children's records will be kept at each program site. A Director/Coordinator will review all medical logs at least twice a year to determine that all possible preventative measures are being taken. Children's records and medical logs are confidential. Parents have access to all records and medical entries on their child.

Non-Discrimination Statement

Any family is welcome regardless of their race, color, creed, national origin or ancestry, sexual orientation, political persuasion or financial status.

Y Child Care Philosophy

Y programs are designed to encourage children to build healthy, happy attitudes and to work toward developing competencies and skills through a variety of work and play experiences. Our goal is to develop the individual child's positive self-image, creative expression, communication skills and motor coordination, in an environment that stimulates a desire to learn and have fun.

Special Needs/Americans with Disabilities Act

The Y programs are best able to meet a child's needs when special needs are identified prior to enrollment. Children with special physical or emotional needs will be accepted if the program is determined to be in the child's best interest and reasonable accommodations can be made. Parents will be required to complete an additional enrollment form that identifies special requirements and/or specific procedures that staff will need to follow. A child may be removed from the program if his/her participation creates a significant difficulty or expense based on the accommodation actions needed or if the participation posed a significant risk to the health and safety of others. In assessing the Y's ability to accept a child with special needs into the program staff, in collaboration with parents/guardians will:

1. Fully assess the accommodations necessary to integrate the child into the program.
2. Fully assess the benefits the child will receive from participation in the program.
3. Identify available resources needed to make reasonable accommodations for the child to participate in the program.
4. Fully identify any risk management issues concerning the integration of the child into the program.

DISCHARGE OF ENROLLED CHILDREN POLICIES

Communication between Program and Parent

Communication about a child's progress and behavior will be shared by the Y staff, generally in person. Other means of communication include e-mail, parent newsletters, and notes in a child's mailbox or through information on the parent table. - Any fees paid will be refunded on a pro-rated basis.

Y Initiated Withdrawal

- In the event that the parent/guardian and the staff are unable to come to a mutually satisfying course of action after identifying and processing a concern, the Director/Coordinator reserves the right to cancel the enrollment of the child. Written notification prior to withdrawal is not required if the withdrawal is requested by Y staff.
- The Director/Coordinator reserves the right to cancel the enrollment of a child for one or more of the following reasons:
 1. The program is not contributing to the child's emotional or physical development.

CHILD GUIDANCE POLICIES

Guidelines for Working with Children

- The goal of the Y is to guide children in becoming cooperative, happy and responsible participants by modeling positive, non-threatening teaching techniques involving problem solving, communication and negotiation skills.
- Guidance will not damage the child's self-image or embarrass the child involved. Whenever possible, limits will be displayed and reinforced through active listening, I messages, giving information, contingencies, making choices and natural and logical consequences.
- Emphasis will be placed on the positive in order to enhance self-esteem, respect, self-control, and managing crying, fussing, or distraught children.
- Children will be encouraged to use the art of communication and negotiation in setting any disputes that should arise between them. Staff will be in close proximity to encourage children and to use active listening to help facilitate negotiation skills.
- Staff will demonstrate a calm demeanor, politeness and gentleness with children through actions and tone of voice.
- Staff will utilize the sign in/out sheets and transfer cards, when applicable, to ensure the number, names and whereabouts of children at all times.

Behavior Management

- Environmental room arrangements and setting of limits will be carried out to help each child learn self-control, make correct choices, identify feelings and develop a healthy understanding and respect of feelings for others.
- Room arrangements will consist of preset limits in each area to enable children to recognize a problem in advance and determine what is expected of them in case of overcrowding in an area.
- The environment will provide optimal space for children to become involved in both group and solitary play. It will be arranged with specific areas, each with set limits and visually accessible to staff.
- Guidance will be ongoing throughout the day in all activities in which children participate. The staff and children will cooperatively establish expectations and will be posted for all to follow.
- Daily schedules and weekly lesson plans will be posted and followed to provide consistency and to help children thrive and build their bond of trust with staff.
- Optimal amounts of activities will be provided to keep each child involved at his/her developmental level.
- Daily routines will be examined and transitional activities will be evaluated continually with the intent of accommodating the needs of all children. Techniques for transitions will be used so children are not waiting in large groups or long lines.

Guidance Techniques

Children under 3 years of age:

1. Staff will locate themselves closer to the child.
2. Staff will redirect the child's individual activity.
3. Staff will provide a separate activity for the child.
4. Staff will consult with parents or guardians.

Children over 3 years of age:

1. Staff will locate themselves closer to the child.
2. Staff will redirect the child's individual activity.
3. Staff will provide a separate activity for the child.
4. Refocus Time:
 - Defined as removing a child from a situation in a non-humiliating manner and placing the child in a designated location in order to interrupt the unacceptable behavior.
 - Time will not exceed five minutes.
 - Staff will consult with parents or guardians.

Prohibited Treatment

Children will not be subjected to the following treatment:

- Spanking, hitting, or other corporal punishment.
- Verbal abuse or derogatory remarks.
- Tying, binding, or confining.
- Withholding or forcing food or naps.
- Punishing for lapses in toilet training.

The above treatments are prohibited even at parental request.

Physical or verbal abuse will never be used to resolve conflict.

Child Management Techniques

A review of child management techniques will be part of the orientation process. Staff are expected to know where children are at all times during the program.

Discipline Techniques

Our goal is to guide children in becoming happy, responsible, and cooperative participants through positive teaching techniques. In the event that behavior requires discipline:

- Teacher action will not damage the child's self-image or embarrass the child.
- Teacher action will help children learn self-control, choose alternatives, identify feelings and develop and understanding and respect of feelings for others.
- Teachers will communicate regularly with families regarding behavior concerns.
- Every effort will be made by staff to enlist the cooperation of the child and parents to solve problems.
- Whenever possible, logical and natural consequences will be used as a format for discipline. Any disciplinary action shall be carried out by staff only, not by volunteers, observers or other children.

The following factors shall contribute to good discipline:

1. Modeling by Adults

- Adults shall model appropriate behavior by incorporating the Y core values of caring, honesty, respect and responsibility.

2. Classroom Environment

- The physical environment will provide optimal space for children to become involved in both group and solitary play. Equipment shall accommodate the height of the children and shall be arranged in a manner that defines specific areas of the room and allows visual accessibility by teachers.

3. Planned Activities

- Careful planning by staff will provide an optimal amount of activities to keep each child involved at his or her developmental level.

4. Related Curriculum

- Plans devised by the staff shall involve interpersonal relationships of children, identifying feelings, developing self-esteem, self-control, good manners, sharing, honest and safety.

5. Ongoing Scheduled Evaluations

- Staff shall periodically examine the daily routine and evaluate transitional activities with the intent of accommodating both the needs of the children and the staff.

6. Redirection of Children

- Staff shall be aware of typical signals coming from children that indicate potential misbehavior, such as increased noise level and irritability. Staff will avoid discipline problems by offering a variety of appropriate activities, by scheduling activities so as to provide the child with active and quiet play periods and by coordinating room design with activities available. The staff will have more understanding of potential discipline problems by knowing the children involved. If a resolution cannot be reached, the aggressor will be given a choice of other activities as an alternative, with staff guiding the child to a new area or activity.

Prohibited Discipline

Children in the school age program shall not be subjected to the following treatment or misbehavior:

- Spanking, hitting, swatting, shaking, or any other forms of corporal punishment.
- Verbal abuse, threats or derogatory remarks regarding the child or the child's family.
- Tying or binding to restrict a child's movement or detaining the child in a confined space, such as a closet, locked room or box.
- Withholding or forcing snacks.

No staff will be allowed to use any of the above-mentioned methods of punishment if requested by a parent. School Age staff that punishes children in a manner prohibited by licensing will be counseled, which may lead to suspension or discharge without benefits.

Biting

Biting is a natural developmental stage that many children go through. It is usually a temporary condition that is most common between thirteen and twenty-four months of age. The safety of the children at the center is our concern. The center's biting policy addresses the actions the staff will take if a biting incident occurs.

Toddlers bite other toddlers for many different reasons. A child might be teething or overly tired and frustrated. He or she might be experimenting or trying to get the attention of the teacher or his peers. Toddlers have poor verbal skills and are impulsive without a lot of self-control. Sometimes biting occurs for no apparent reason. The center will encourage the children to "use their words" if they become angry or frustrated. The staff members will maintain a close and constant supervision of the children at all times.

The following steps will be taken if a biting incident occurs at our center:

- The biting will be interrupted with a firm "No...we don't bite people!"
- Staff will stay calm and will not overreact.
- The bitten child will be comforted.
- Staff will remove the biter from the situation. The biter will be given something to do that is satisfying.
- The wound of the bitten child shall be assessed and cleansed with soap and water. If it is determined that there was a blood exposure further steps need to be taken under [Procedure for Incidents Involving Blood Exposure](#).
- The parents of both children will be notified of the biting incident. Appropriate forms will be filled out (Incident Report). *Note: If a bite requires medical treatment, a copy of the incident report must be mailed to the licensing consultant within 48 hours*
- **Confidentiality of all children involved will be maintained.**
- The bitten area should continue to be observed by parents and staff for signs of infection.

Bullying Prevention and Response

Our goal at the Y is to provide an environment which is safe, caring and respectful for all children. Bullying is unacceptable in all YMCA childcare programs.

Bullying includes aggressive and hostile behavior that is intentional and involves an imbalance of power between the bully and the bullied. Bullying happens more than once over a period of time.

Examples of bullying include but are not limited to:

- Physical, social and or emotional attacks
- Social exclusion and or isolation
- Teasing, rumors, put-downs
- Anything based on sex, race, color, religion, national origin, and sexual orientation
- Physical, mental, emotional, learning disability or handicap

Consequences for children who bully

- Participants who engage in any form of bullying behavior will be subject to disciplinary action in accordance with the YMCA policy. This behavior is unacceptable at the YMCA
- Refer to: **Discharge of Enrolled Children Policy.**

CONTINGENCY POLICIES

Procedures Specific to Specific Emergencies

Fire

- Set off alarm and dial 9-1-1 if it has not yet been done.
- Children will be taught to immediately stop everything they are doing when they hear the fire signal and move in an orderly manner to the designated area.
- All lights will be turned on when exiting, enabling fire fighters to see better in a smoke-filled building.
- Classroom doors will be closed to prevent the spread of the fire.
- Refer to Evacuation Procedure.

Tornado

- In event of threatening weather, staff will listen to the radio.
- If information is given to seek shelter, a staff person will have the children line up at the designated area, take count of the children, and have children move in an orderly manner to the shelter areas designated on the "Tornado Shelter" diagram.
- Refer to Evacuation Procedure.

Missing Child

- In the case of a missing child, all attempts will be made to locate the child within the building. A staff member will inform appropriate school staff or administrative staff of the situation. They will assist in the process of locating the child.
- If the child cannot be located within 15 minutes, the child's parents/guardians will be contacted.
- In the event no parents/guardians can be reached, emergency contacts will be notified. If no one can be contacted, the police will be notified.
- In the event the child is readily found, staff will promptly notify all persons contacted and complete a Y Incident Report to be signed by the parents/guardians and Director.

Intruder

- In the case of an intruder all program areas will be locked and the police will be called.
- Intruder drills will be held twice a year and recorded on Fire/Tornado drill sheets.

The School Age Program will follow the emergency procedures set forth by the Y. Each new staff person will be trained by the coordinator or site supervisor of the program on the proper procedures. Each staff member will be taught as a part of the monthly evacuation drill. Emergency supplies such as flashlights and batteries will be available.

- **Building Evacuation**
 1. Written procedures and diagrams of escape routes are posted at the program site.
 2. The primary escape route is exit #1. The secondary escape route is exit #2.
- **Emergency Procedures:**
 1. Staff will take the sign in/sign out sheets and each child's records.
 2. Staff will take count of all children and line the children up. Staff will lead the children to the appropriate exit. A staff member will be the last to exit the building after checking bathrooms, closets, hallways, etc.
 3. If children or staff have physical or mental disabilities, they will be assisted with building evacuation by program site leaders and/or emergency contact representatives.
 4. After children are assembled in the pre-designated areas, staff will refer to sign in/sign out sheets to account for each child.
 5. Program site leaders will notify the Y regarding the location of the children.
 6. School secretary and/or maintenance personnel will be the 5-minute emergency contact representatives for School Age programs.

Evacuation drills will be practiced monthly, at varied times and days. This is to insure that all participants have been exposed to the drill.

Following each drill, it is to be documented. This form must be posted in close proximity of the Evacuation Diagram. Periodically these forms will be checked by the coordinator to insure that the drills are taking place.

Temperatures

The inside room temperature may not be less than 67 degrees. If the inside temperature exceeds 80 degrees, the program will provide fans or other means for air circulation.

If outdoor temperature of 0 degrees or below, children age 2 and above will not go outside. If outdoor temperature of 20 degrees or below, children below the age of 2 will not go outside. If outdoor temperatures are above 90 degrees, children will not go outside.

Staff will use their own discretion for outdoor play, taking into consideration wind chill factor for cold weather and heat index for hot weather. If building service loss occurs during a School Age program, the school officials will be contacted immediately.

Medical Care**Major Injuries**

- Call 9-1-1. Alert Y front desk for programming in the Y facility.
- Administer CPR, if a life-threatening injury.

- All school sites will have a supply of bandages, tape and band aids.

Attendance

Daily attendance sheets will be kept by the Site Supervisor to sign children in and out of the program. This will be used in the event of an emergency to determine the number of children in the program. Each staff person will know the number of children in attendance, as well as the name and location of each child.

Telephone and Emergency Numbers

Each program will have a working telephone during hours of operation. A list of emergency numbers, including 9-1-1, Poison Control, school officials (for school age programs), and other Y emergency contacts, will be posted near each telephone. Phone numbers of emergency contacts who can be at the site within 5 minutes will be posted by each telephone. Motor vehicle availability will always be present with staff vehicles.

Breast Milk Exposure

All day care programs do label all bottles and breast milk for every infant. However, if an infant is given the wrong bottle, the following procedures will be followed:

2. If the bottle contains formula, immediately contact the parents to be sure the child is not allergic or sensitive to the milk or formula given.
3. If the breast milk is mistakenly given to the wrong child, the parents will be immediately notified that their child was given another child's bottle of expressed milk.
4. Ask the mother when the breast milk was expressed and ask how it was handled before being brought into the childcare setting. Provide this information along with (or in addition to) details on how the bottle was handled in the childcare setting to the child's parents.

Although the risk of contamination is very small, it should be treated as a possible HIV exposure. Recommended procedures for a possible HIV exposure from breast milk are as follow:

- The parents should notify the child's physician of the situation. The physician may recommend a baseline test for HIV.
- The mother of the child who supplied the expressed breast milk may be asked if she has ever had an HIV test. If she has not, or does not know if she has had a test, ask if she would be willing to have one and share the results.
- If the mother does not know whether she has ever been tested for HIV, would she be willing to contact her physician and find out if she has been tested.

All testing that needs to be completed will be at the expense of the YMCA of the Fox Cities.
